

# Raptor Background Screening for Florida

The Raptor® Volunteer Management system, integrated with JD Palatine (JDP), saves school districts time and money by delivering the most comprehensive background screening solutions for Florida school volunteers.

## The Raptor system and the background screening integration:

- **Streamlines Communication:** Eliminate hundreds of status inquiry calls from volunteer applicants. The system provides instant email notifications for application submissions and cleared background checks.
- **Reduces Turnaround Time:** Reduce the average application approval process from weeks to hours. The Raptor system provides a digital solution that automatically approves applicants with no criminal history, leaving only applications with potential risk requiring hands-on review.
- **Improves Safety and Security:** Track volunteer hours and keep your schools safe. Volunteer hours begin accumulating at check-in. Every time a volunteer checks into a school, they are screened against the sex offender registries in all 50 states and a custom alert database.

Choose the package that best fits your needs. Contact Raptor for volume discounts.
