

## K-12 VOLUNTEER MANAGEMENT

### Fully integrated from application to reporting

Managing a team of volunteers doesn't have to be a time-consuming process. The Raptor<sup>®</sup> Volunteer Management system is a comprehensive, streamlined, end-to-end solution from application to screening to reporting.

Say goodbye to bulky 3-ring binders, flimsy color-coordinated folders, and troublesome spreadsheets. Say hello to the Raptor Volunteer Management system.

“

The system automatically screens applicants for sex offender status and criminal background. We used to have to do that manually, and it was a slow process. During peak periods schools might wait weeks to clear a volunteer. It's so much simpler and more accurate with Raptor.

- Touda Bentatou, IT Analyst, Irvine (CA) Unified School District

”

The Raptor® Volunteer Management system streamlines the volunteer management process: volunteers can easily apply and be tracked, screened, and scheduled—and reports can be accessed—all in one place. Available as a stand-alone solution, the Volunteer Management system is seamlessly integrated with the Raptor® Visitor Management system.

In a recent school year, the Raptor system has helped districts manage more than 400,000 volunteers donating more than 11 million hours.

▶ **APPLICATION**  
Volunteers apply in an easy-to-use, customizable online application.

▶ **SCREENING**  
Volunteers are checked for sex offender status, and criminal background results are compiled for easy review, approval, and tracking.
