

Raptor® Emergency Management

Raptor Emergency Management helps you to better **prepare for**, **respond to**, and **recover from** an emergency with:

▶ Drill Management

- Simplify drill scheduling, drill management, and compliance tracking.

▶ Active Incident Management

- Initiate an Emergency from your mobile phone or tablet with the touch of a button.
- Access building maps and emergency procedures.
- Account for the status and location of all students and staff.

▶ Parent-student Reunification

- Verify every student is reunited with an approved guardian in real-time.
- Track every individual's status changes over time, enabling you to have a history of events for each student and staff member.
- In timed district comparison trials, using the Raptor Emergency Management system was **4 TIMES FASTER** than paper-and-pencil based reunification.
